

Breaking poverty for slum children in Uganda

Child of Hope is a Christian charity that works in Uganda with some of the poorest slum children in the world – building schools to give them free education so they can eventually get a good job.

In the process we also give them free medical provision, food, clothing and family welfare support. We even help their mums start a small business to help the family get out of the worst extremes of poverty and become self-sufficient.

You can help by praying, donating, or by sponsoring a child or staff member... which will mean we can help even more children.

You could send a text donation right now! Simply text **CHILD 10** to **70085** to donate £10. This costs £10 plus a standard rate message (or you can give any amount in whole pounds up to £20 – text CHILD 5, 15, etc.). Thanks!
